MELISSA GRIX

Chicago, IL | 561-235-8317 | Melgrix@gmail.com

PROFILE

Customer support and operations professional with 10+ years of experience in client-facing, support, and operations roles. Experienced in resolving client issues across internal teams, auditing records for accuracy and compliance, and overseeing day-to-day operations and staff. Finishing a B.S. in Web Development & Design (4.0 GPA) and a HubSpot Inbound Marketing certification. Seeking a customer success, support, or operations role at a technology company.

RELEVANT SKILLS

- Inventory and operations: managed inventory levels, ordering, staffing, and scheduling across multiple retail locations
- Quality control and compliance: audited electronic records against internal processing standards, tracked down discrepancies, and resolved them through root-cause review
- Client and cross-team coordination: resolved escalated client issues by working directly between clients and internal teams
- Process documentation: logged and tracked support requests and workflows in Jira, keeping records clean and audit-ready
- Tools: Jira, Bamboo, Excel, Google Workspace, HubSpot
- Technical: SQL, HTML, CSS, JavaScript, Python, GitHub

EXPERIENCE

Owner, Habitual Strength & Performance

- Coached a high volume of remote clients, building individualized programs and adjusting them based on performance data
- Built long-term client relationships through check-ins and feedback, keeping clients engaged
- Collected and tracked client data, including performance, progress, and feedback
- Explained complex information into clear, actionable steps clients could follow

Customer Support Specialist, PitchPoint Solutions

- Worked with internal teams to trace the root cause of client-reported issues and get to a workable fix
- Logged and followed every ticket through Jira so nothing fell through the cracks
- Translated process issues into plain terms for non-technical clients
- Handled a steady, high volume of requests without losing accuracy or organization

Auditor, PitchPoint Solutions

- Reviewed electronic data for accuracy and compliance against internal processing standards
- Investigated the source of discrepancies and ran quality-control checks to close them out
- Kept pace with high request volumes while still hitting accuracy targets

Operations Manager, AMP Nutrition

- Ran day-to-day store operations across multiple retail locations, including inventory control, ordering, staffing, and scheduling
- Balanced inventory accuracy and customer experience against competing priorities across locations
- Coached and developed staff toward performance goals at each location
